## 1941-1945

**Production Total (1941-1945):**

MB: 361,339, GPW: 280,000

### ■ Technical Specifications - Willys MB / Ford GPW

**Length:** 132.25" (335,91 cm.)

**Width:** 62" (157,48 cm.)

**Height: (Top Up):** 69.75" (177,16 cm.)

**Height: (Top Down):** 52" (132,08)

**Tire Size:** 6.00-16, 30 psi

**Electrical:** 6 Volt

**Transmission:** 3 speed T-84

**Transfer Case:** 2 speed Dana 18

**Front Axle:** Dana 25

**Rear Axle:** Dana 27

**Wheelbase:** 80" (203 cm.)

**Other:** 2 Piece Windshield, No Tailgate

**Engine:** 4-134 L Head Motor (463) (All Years)

#### Serial Number Location(s):

Passengers side of dash (stamped on military data plate).

Stamped on upper left chassis rail between the gusset and bumper.

#### Engine Number Location:

Stamped on an outcropping (boss) on the right front of the engine block behind the water pump. For GPW, look for a Ford script "F" cast into the head and block.

Willys Overland "Go-Devil" Motor

### ■ Vehicle Identification - Willys MB / Ford GPW

#### Main Identifying Characteristics:

Flat front fenders, 9 slot stamped grill, rectangular 2-piece (split) outward-pivoting windshield, split combat wheels, blackout lights, machine gun mounting plate, front axle mounted pivot arm, spindle arms are separate from the spindle housing, tilting headlights, fuel filler under drivers side seat, no tailgate, hand-operated windshield wipers, pioneer tool (axe & shovel) indentations on the drivers side.

#### Model Differences: MB

Tubular arched front crossmember

Rear shock brackets are "open" channel type

Solid tool box lid

Early models had "Willys" emblem

#### Model Differences: GPW

U-channel front crossmember

Rear shock brackets are two pieces welded together ("closed" type)

Tool box lid is embossed

Early models stamped with "Ford" emblem

#### Stamped 9-Slot Grille

#### Willys "Script"

#### Helper Spring

#### Ford "Script"

#### Pioneer Tools

## 1945-1949

**Production Total (1945-1949):**

Willys CJ-2A: 214,760

### ■ Technical Specifications - Willys CJ-2A

**Length:** 130 1/8" (3,3 m.)

**Width:** 59" (149,8 cm.)

**Height:** (Overall): 69" (175 cm.)

**Tire Size:** 6.00-16, Front 26, Rear 28 psi

**Electrical:** 6 Volt

**Transmission:** 3 speed T-90

**Transfer Case:** 2 speed Dana 18

**Front Axle:** Dana 25

**Rear Axle:** Dana 41

**Wheelbase:** 80" (203 cm.)

**Other:** 2-Piece Windshield, Tailgate

**Engine:** 4-134 L Head Motor (463) (All Years)

#### Serial Number Location(s):

On a data tag (plate) behind the front bumper on the frame horn.

Inside engine compartment on the upper passengers (right) side firewall.

#### Engine Number Location:

Stamped on an outcropping (boss) on the right front of the engine block behind the water pump.

### ■ Vehicle Identification - Willys CJ-2A

#### Main Identifying Characteristics:

7-slot stamped grille with flush-mounted head and parking lights, rectangular 2-piece (split) outward-pivoting windshield, top-mounted windshield wipers, tailgate, fuel filler on outside drivers side of body, tool box compartment under passengers side seat, no glove box, spare tire mounted on rear passengers side.

#### Model Differences by Year:

**1945-Mid 1946:** Military indentions for axe and shovel, PTO, column shift, military style windshield adjusting arms, short back seat, front bumper gussets, recessed parking lights

**Mid 1946:** 3-Point hydraulic system, floor-type shifter, longer back seat, "Lollipop" style windshield adjusting arms, pivot arm is attached to front crossmember.

**1949 - Early 1950:** CJ-2A bodies fitted with 3A frames as part of the crossover into CJ-3A production.

# WILLYS M38

## 1950-1952

**Production Total (1950-1952):**

Willys M38: 45,473

### ■ Technical Specifications - Willys M38

**Length:** 133" (3,38 m.)  
**Width:** 62" (157,48 cm.)  
**Height:** (Top Up): 74" (187,96 cm.)  
**Tire Size:** 7.00-16  
**Fuel Capacity:** 13 Gal.

**Electrical:** 24 Volt  
**Transmission:** 3 speed T-90  
**Transfer Case:** 2 speed Dana 18  
**Front Axle:** Dana 25  
**Rear Axle:** Dana 44

**Wheelbase:** 80" (203 cm.)  
**Other:** 1 Piece Windshield, 24 Volt  
 Waterproof Electrical  
**Engine:** 4-134 L Head Motor (463) (All Years)

#### **Serial Number Location(s):**

Inside engine compartment on the upper passengers (right) side firewall.  
 On a tag behind the bumper riveted to the left frame horn.

#### **Engine Number Location:**

Stamped on an outcropping (boss) on the right front of the engine block behind the water pump.

### ■ Vehicle Identification - Willys M38

#### **Main Identifying Characteristics:**

One-piece windshield, Vacuum-style bottom mounted windshield wipers, flat fenders, pioneer tool (axe & shovel) indentations on the passengers side, waterproof 24 Volt electrical system, protruding headlights with guard wires, black out lights, larger 4 1/2" fuel filler on drivers side, hinged grille, tailgate, rear-mounted spare tire, glove boxes, snorkel system, bumperettes.

#### **Model Differences:**

The M38 is based on the civilian CJ-3A with improved characteristics such as a waterproof electrical system, blackout lights, and a larger fuel filler for quicker refueling during combat.

## 1949-1953

**Production Total (1949-1953):**

Willys CJ-3A: 131,843

### ■ Technical Specifications - Willys CJ-3A

**Length:** 129 3/4" (3,29 m.)

**Width:** 59" (149,8 cm.)

**Height:** (Overall): 66 3/4" (170 cm.)

**Tire Size:** 6.00-16, Front 26, Rear 28 psi

**Electrical:** 6 Volt

**Transmission:** 3 speed T-90

**Transfer Case:** 2 speed Dana 18

**Front Axle:** Dana 25

**Rear Axle:** Dana 44

**Wheelbase:** 80" (203 cm.)

**Other:** 1-Pc Windshield w/center vent,  
Tailgate

**Engine:** 4-134 L Head Motor (463) (All Years)

#### Serial Number Location:

Inside engine compartment on the upper passengers (right) side firewall.

#### Engine Number Location:

Stamped on an outcropping (boss) on the right front of the engine block behind the water pump.

### ■ Vehicle Identification - Willys CJ-3A

#### Main Identifying Characteristics:

One-piece windshield with rounded glass and center vent, bottom mounted windshield wipers, spare tire on rear passengers side, drivers side seat lowered and moved back for more leg/head room.

#### Model Differences by Year:

1951 had a special CJ-3A model with SN (451-GCI) called the Farm Jeep® which was equipped with equipment such as: hydraulic lift, power take off (PTO), drawbar, propeller shaft guards, heavy duty springs and a variable speed belt driven governor.

#### Power Take Off (PTO)

# WILLYS CJ-3B

## 1953-1964

**Production Total (1953-1964):**

Willys CJ-3B: 196,000

### Technical Specifications - Willys CJ-3B

**Length:** 129 29/32" (3,30 m.)

**Width:** 59" (149, 8 cm.)

**Height:** (Maximum): 66 1/4" (169 cm.)

**Tire Size:** 6.00-16

**Electrical:** 6 Volt, after 1957 12 Volt

**Transmission:** 3 speed T-90

**Transfer Case:** 2 speed Dana 18

**Front Axle:** Dana 25

**Rear Axle:** Dana 44

**Wheelbase:** 80" (203 cm.)

**Other:** 1 Piece Windshield

**Engine:** 4-134 F Head Motor (All Years)

#### Serial Number Location:

Inside engine compartment on the upper passengers (right) side firewall.

#### Engine Number Location:

Stamped on an outcropping (boss) on the right front of the engine block behind the water pump.

### Vehicle Identification - Willys CJ-3B

#### Main Identifying Characteristics:

High hood, new-style grille to accommodate the overhead valve Willys F-Head motor, flat front fenders, one-piece windshield with shorter front frame panel, spare tire mounted on rear passengers side, no glovebox, parking brake pull lever mounted in middle of the dash.

#### Model Differences by Year:

In 1957 the 12-volt electrical system was introduced.

#### Open Body

#### Canvas Halftop

#### Canvas Fulltop

## 1952-1971

### Production Total (1952-1971):

Willys M38A1: 101,488

(80,290 domestic / 21,198 foreign sales)

## ■ Technical Specifications - Willys M38A1

**Length:** 138 5/8" (3,53 m.)

**Width:** 60 7/8" (154,94 cm.)

**Height:** (Maximum): 73 3/4" (187,325 cm.)

**Tire Size:** 7.00-16

**Electrical:** 24 Volt

**Transmission:** 3 speed T-90

**Transfer Case:** 2 speed Dana 18

**Front Axle:** Dana 25, 27

**Rear Axle:** Dana 44

**Wheelbase:** 81" (205,74 cm.)

**Other:** 2-Piece Windshield, 24 Volt Electrical

**Engine:** 4-134 F Head Motor (475) All years

### Serial Number Location:

Passengers side of dash (stamped on data plate).

### Engine Number Location:

Stamped on an outcropping (boss) on the right front of the engine block behind the water pump.

## ■ Vehicle Identification - Willys M38A1

### Main Identifying Characteristics:

Rounded front fenders, 2-piece windshield, top mounted wipers, 24 volt waterproof electrical system, black out lights, rear-mounted spare tire, recessed headlights, large 4 1/2" fuel filler on driver side, large circular indentation on the passenger side body panel for electrical hookup, machine gun mount, battery box on cowl under windshield, glove box located on driver side dashboard, no tailgate.

### Model Differences:

1952-1960 Dana 25, 1961-1971 Dana 27. From 1952-1953 battery box is secured with 8 thumb screws, hinged front grille, freestanding radiator mount, front seam at a 45 deg. angle. 1953 the battery box is secured with a latch strap, the grille is fixed with one large bolt at the bottom center, two support rods are added to radiator and firewall, the angled seam is replaced with a vertical seam.

## 1955-1971

### Production Total (1955-1983):

CJ-5: 606,303

CJ-6: 50,172

## ■ Technical Specifications - Willys CJ-5, CJ-6

**Length:** CJ-5: 135 9/16", CJ-6: 155 1/2"

**Width:** CJ-5: 71 3/4", CJ-6: 72"

**Height:** CJ-5: 67", CJ-6: 68"

**Tire Size:** 6.00-16

**Electrical:** 6 Volt, 12 Volt

**Transmission:** 3 speed T-90

**Transfer Case:** 2 speed Dana 18

**Front Axle:** Dana 25, 27

**Rear Axle:** Dana 44

**Wheelbase:** CJ-5: 81", CJ-6: 101"

**Other:** One-piece windshield,  
Fenders curve down

**Engine:** 4-134 F Head Motor 1955-1971,  
V6-225 Dauntless V6 Motor 1966-1971

### Serial Number Location:

Passengers side of dash (stamped on data plate).

### Engine Number Location:

Stamped on an outcropping (boss) on the right front of the engine block behind the water pump.

## ■ Vehicle Identification - Willys CJ-5, CJ-6

### Main Identifying Characteristics:

Rounded front fenders, 7-slot stamped grille, heavier rounded hood, One-piece windshield with top-mounted wipers, windshield hinged to top of cowl, spare tire mounted on rear passenger side, defroster, glove box, thicker, larger seats, 3" fuel filler cap, tailgate.

### Special Models:

1961-1964 Tuxedo Park Mark III & IV were introduced for the CJ-5A and CJ-6A models. Chrome bumpers, hood badges, column shift, an indian-ceramic steering wheel and other accessories distinguish this trim package.

# WILLYS JEEPSTER

## 1948-1950

**Production Total (1948-1950):**

Willys Jeepster (VJ): 19,132

### ■ Technical Specifications - Jeepster (VJ)

**Length:** (overall) 174.8" (4,43 m.)

**Width:** (overall) 69" (175,26 cm.)

**Height:** (overall): 62" (157,48 cm.)

**Tire Size(s):**

(4-cylinder) - 5.90 × 15

(6-cylinder) - 6.70 × 15

**Electrical:** 6 Volt

**Transmission:** 3 speed T-96

**Transfer Case:** 2 speed Dana 18

**Front Axle:** Planar Suspension  
(one leaf spring in front)

**Rear Axle:** Dana 23

**Wheelbase:** 104" (205,74 cm.)

**Other:** 2 Piece Windshield

**Engines:**

**4-134 L Head "Go-Devil" Motor (463):**

1948-1949 Jeepster

**6-148 "Lightning" L Head Motor:**

1948-1948 Jeepster

**4-134 F Head Motor (473):** 1950-'51 Jeepster

**6-161 "Lightning" F Head Motor:**

1950-1951 Jeepster

**Serial Number Location:**

Behind glovebox on inside of firewall.

**Engine Number Location:**

Stamped on an outcropping (boss) on the right front of the engine block behind the water pump.

### ■ Vehicle Identification - Jeepster (VJ)

**Main Identifying Characteristics:**

Flat fenders, split windshield, single leaf spring, 104" Wheelbase. Jeepsters came in 2WD only.

**Model Differences By Year:**

1948 - small glass rear window, "T" bar grille trim. 1949 - rear window enlarged and made of plastic instead of glass. 1950 - rear bumper stamped "Willys", restyled grille, fenders, and front hood. 1951 - unsold 1950 models were retitled as 1951 models, with some 1951 models assembled from left over parts.
